12 July 1957

25X1A

TO : Mr. [REDACTED]  
Vice-President, Operations

25X1A

SUBJECT : Report of Mr. [REDACTED] visit to Hycon

25X1A

1. We have studied the report dated 24 June 1957 pertaining to Mr. [REDACTED]'s visit to Hycon during the period 15-22 June 1957.

2. In the course of our study it was felt one particular paragraph needed further explanation. The paragraph is 3-o entitled "Headquarters-Detachments-Hycon. We would therefore appreciate if you would expand on this paragraph giving full details. Our records indicate we have coordinated all programs with you, however, it is quite possible we may have been delinquent. If this be the case we most certainly wish it brought to our attention.

3. We were pleased to read in par. 3 1 that the need for further defog test programs is no longer justifiable. This paragraph also gave us our first indication that Detach. C has adopted methods similar to Detach. A and B.

4. From the statements of your report the meeting apparently was beneficial to all concerned.
